## **About Aerospace Bristol**

Aerospace Bristol offers a supersonic family day out for all ages! Visitors have the chance to step aboard the last Concorde ever to fly and discover amazing aircraft and technologies developed in our area over the last century - from fighter planes and helicopters to engines, missiles, satellites and space rockets.

As part of your visit, you'll watch a stunning show projected on to the side of Concorde, explore the passenger cabin - where VIP travellers would relax as they flew at more than 1,300mph - and glimpse inside the cockpit of the supersonic jet.

As a museum that aims to inspire the engineers of the future, Aerospace Bristol has something for everyone. Younger visitors will love getting hands-on with interactive exhibits, following Alfie Fox's children's trail, and climbing aboard the aeroplane-themed outdoor play area!
