

# Year 6 Art & Design Transition Task: Photographs Recreating Famous Paintings

The Getty Museum in the USA recently started an internet phenomenon when it suggested that people recreate famous paintings using objects, clothing, people or animals in their own homes. If you can access the internet, you can see some of the amazing results here:

<https://mymodernmet.com/recreate-art-history-challenge/>

Here are some examples of how people have recreated famous paintings in their photographs.

Use your pet as a model!

Make your photograph funny.

For your transition task in Art & Design, **choose** one of the paintings shown on this worksheet and use what you have in your home to **recreate it** as accurately as you can, **photograph** the result and **share it** with your new teachers:

- Be creative in choosing objects, materials, backgrounds, furniture etc. to make your photographs as accurate as possible.
- Use your family/ pets as models to be in your painting– you can dress them up to look like the characters!
- Once you have arranged your “painting”, photograph it carefully (or ask someone else to photograph it for you).
- Then you need to share it with us so we can see what you’ve done. You might need an adult to help with this. **If you don’t have internet access, please don’t worry about this step – we want you to enjoy being creative by making the photograph.**
- Share your work with us either through Instagram, **@instacabart** OR by emailing your teachers OR by uploading your work to OneDrive and sharing it with us to the same emails.
