

City Academy - Career Strategy

Year 7	Year 8	Year 9	Year 10	Year 11
Introduction to the Academy's careers, advice and guidance programme	Careers assembly at the beginning of the year reintroducing the Academy's careers, advice and guidance programme	Students have a termly assembly highlighting careers by introducing guest speakers	Students have the opportunity to attend a careers fair at school where they have access to over 30 different providers with labour market information, this also included the meeting of various employers.	Students have the opportunity to attend a careers fair at school where they have access to over 30 different providers with labour market information, this also included the meeting of various employers.
PHSE Curriculum covering topics - Preparing for adulthood, financing & Budgets, Higher & Further education, Job sectors and Post 16.	Many students have the opportunity to be involved with mentoring programmes with a local business focusing on skills and qualities for the workplace.	Many students are involved with future quest and insights into apprenticeships. These initiatives are designed to encourage young people to go onto University or Apprenticeships through visits to the workplace, meeting employers and higher educational visits.	Every student has the opportunity for 1 week of the year to take up or work experience in an environment which is suitable and in a practical environment which the student will learn from.	National Careers week - for one week especially staff are encouraged to promote different job sectors and industries within their learning in aid of getting students to think about different Jobs and how they link to subject areas.
